

In-house training

Provide your employees with tailored training at a venue of your choice. We are happy to arrange in-house training sessions towards all CISI certificates units. Please contact **020 8746 4178** for more information.

Tutors' top tips for revision and passing exams

1. You should plan and organise your studies away from distractions and take regular breaks so your mind stays fresh.
2. We say active revision is better than passive revision, test your memory by giving yourself quizzes and using the review exercises.
3. You must learn the factual details from the study text as well as the major concepts.
4. We believe practice makes perfect – attempt the questions in the question bank, build momentum by completing the practice exams and identify areas that need further study.
5. We want you to succeed, so contact us for advice and guidance.
